The Kodak Portra 5 x 4 inch & 120mm negatives were digitised by an Immacon X1 virtual drum scanner. Files were printed using Epson pigment inks onto Ilford GALERIE Prestige Gold Fibre Silk paper by Sanji Karu of Skar Image Lab.

The photographs were mounted by Art Mount using archival adhesive to 5mm Kappa Board.

Homestead Picture Framers placed the works in a Fijian Rimu moulding behind Artglass WW, the latest in museum glass anti reflection and uv resistant technology.

Prices include 15% Goods & Services Tax and a 40% commission.
